

# EOS be.h Equinox Meeting

**Thursday, 9 September 2021 - Thursday, 9 September 2021**

## **Scientific Programme**

We will review the latest results from the recent HEP experiments where the belgian community is involved.

We have organised a session in the early afternoon dedicated to PhD talks from all the 6 nodes of the EOS consortium.

Special emphasis on the role of recent LF universality violations will be given with two invited talks, one theory and experimental.

Main talks at 25'+5'

Talks in the PhD session are 10'+5'
