

**12th CosPa Meeting:
Multi-Messenger Sources and
Observations**

Report of Contributions

Contribution ID: 1

Type: **not specified**

Gamma-ray bursts in the multi-messenger era

Thursday, 21 April 2022 10:10 (45 minutes)

Presenter: DAIGNE (SORBONNE UNIVERSITÉ), Frédéric

Contribution ID: 2

Type: **not specified**

Perspectives for Multi-Messenger Astronomy with the Current and Future Ground-based Gravitational-wave Detectors

Thursday, 21 April 2022 11:45 (45 minutes)

Presenter: BRANCHESI (GSSI), Marica

Contribution ID: 3

Type: **not specified**

Welcome word by the CosPa chair

Thursday, 21 April 2022 10:00 (10 minutes)

Presenter: MARIS, Ioana

Contribution ID: 4

Type: **not specified**

Continuous Gravitational Waves as Multi-messenger Probes in Third-generation Gravitational-wave Detectors

Thursday, 21 April 2022 15:05 (20 minutes)

Presenter: MILLER (UCLOUVAIN), Andrew

Contribution ID: 5

Type: **not specified**

UHECR Mass Composition from Anisotropy with the Telescope Array

Thursday, 21 April 2022 10:55 (20 minutes)

Presenter: KUZNETSOV (ULB), Mikhail

Contribution ID: 6

Type: **not specified**

Neutrino Emission from Gravitational Wave Sources: Experimental Landscape and Prospects

Thursday, 21 April 2022 14:45 (20 minutes)

Presenter: LAMOUREUX (UCLOUVAIN), Mathieu

Contribution ID: 7

Type: **not specified**

Cosmic-ray Observations with LOFAR

Thursday, 21 April 2022 15:55 (30 minutes)

Presenter: BUITINK (VUB), Stijn (VUB)

Contribution ID: 8

Type: **not specified**

Multi-Messenger Observations With Neutrinos

Thursday, 21 April 2022 14:00 (45 minutes)

Presenter: DORNIC (CNRS), Damien

Contribution ID: 9

Type: **not specified**

Multi-Messenger Astronomy - A Long Term View

Thursday, 21 April 2022 16:25 (45 minutes)

Presenter: BLANDFORD (STANFORD UNIVERSITY), Roger

Contribution ID: **10**

Type: **not specified**

Discussion

Thursday, 21 April 2022 17:10 (1 hour)
